Market Segment	Definition
Negotiated Local	Negotiated rates for companies not in contract with our Wyndham Sales Org. Negotiated Locals have the potential to become Wyndham Sales managed accounts, and managed accounts that are not being renewed will downgrade to become Negotiated Local.
Contract	Contracted rates provide companies with a guaranteed daily room allotment, and payment to the hotel is guaranteed regardless whether they are used or not. An example of a contracted rate is an airport hotel that has 5 rooms allotted daily to Airline Crew Members.
Wholesale	Wholesale rates are for tour operators who purchase rooms in bulk, and re-sell them to retail travel agencies. Payment for the rooms from the tour wholesaler is guaranteed, whether they are used or not.
Local Promotions	Local promotional rates and local packages are designed by the individual hotels, and can be offered publicly with BAR, or be offered through a Closed User Group booking link. Pricing may be flat or derived, be an amount or % above RACK, or may even be an amount or % off of RACK. While local promotional rates may or may not include value-added components, local packages must include them. Public availability or Closed User Group set up may also be determined based on whether parity with OTA partners will be impacted

FAQ

When submitting a request for an OTA rate plan, which ‘Request Type’ and ‘Request Type Details’ should I choose?

If the rate plan sells on the OTA partners, regardless of whether it is a new rate plan request or a modify request, you should choose ‘Request Type = OTA’ and ‘Request Type Details = Local Promotions/OTA Rate Plans’.

MyRequest is unable to build or modify negotiated accounts that are owned by Wyndham Sales. How do I know if the account I want to build or modify a rate plan for is owned by Wyndham Sales?

There are tools within Wyndham Community to help you determine whether an account is owned by Wyndham Sales or is a true local before you submit a MyRequest case. You can search Wyndham Sales in Wyndham Community, or you can find their information under Sales Leads by clicking the LEARN MORE button under Explore Wyndham Global Sales services and tools. Once on the Wyndham Sales page, you can access the Master Account List to search for the account and, if found, acquire the name of the Account Owner for support.
